I- l'éditeur ASTM: the American Society for Testing & Materials

Fondée en 1898 ASTM, the American Society for Testing and Materials, est l'une des plus importantes organisations dédiées à la normalisation en sciences des matériaux. 30 000 membres dans 125 pays apportent leur expertise technique au développement de 12 000 normes internationales.

ASTM publie également plusieurs revues scientifiques et de nombreux ouvrages techniques.

Ce fonds scientifique est disponible via la Digital Library

L'ASTM SEDL fournit une couverture complète dans les domaines suivants :

- Génie aérospatial
- Génie biomédical
- Génie chimique
- Génie civile
- Génie de l'environnement
- Génie géologique
- Géo synthétiques
- Santé et ingénierie de la sécurité
- génie industriel
- La science et génie des matériaux
génie mécanique
- L'énergie nucléaire, solaire et
géothermique
- génie pétrolier
- Science de la terre

- Plus de 12 000 normes actives
- 12 300 Redlines (les modifications apportées aux nouvelles éditions de normes sont indiquées par du texte écrit en rouge.)
- 28 500 normes historiques
- 1 000 normes annulées
- Les normes actives sont disponibles en format PDF et HTML

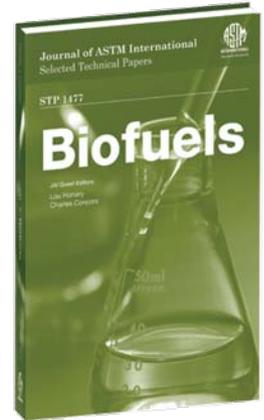

-les six revues ASTM : Plus de 104,000 pages , en croissance continue.

Titre	Date	Pages
1- Journal of ASTM International (JAI)	1996 to today. 10 numéro par an.	21,371
2- Geotechnical Testing Journal (GTJ)	1978 à ce jour. 6 Numéro par an	6,505 pages 144 volumes
3- Journal of Testing and Evaluation (JTE)	1973 à ce jour. 6 Numéro par an	14,002 pages 229 volumes
4- Journal of Cement, Concrete and Aggregates (CCA)	1979 à 2004 Aujourd'hui inclus dans JAI	1,414 pages 51 volumes
5- Journal of Composites Technology and Research (JCTR)	1978 à 2003 Aujourd'hui inclus dans JAI	4,516 pages 99 volumes
6- Journal of Forensic Sciences (JOFS)	1972 à 2005 Aujourd'hui inclus dans JAI	56,205 pages 175 volumes

ASTM Standards & Engineering

Digital Library – Special Technical Publications (STPs) E-Books

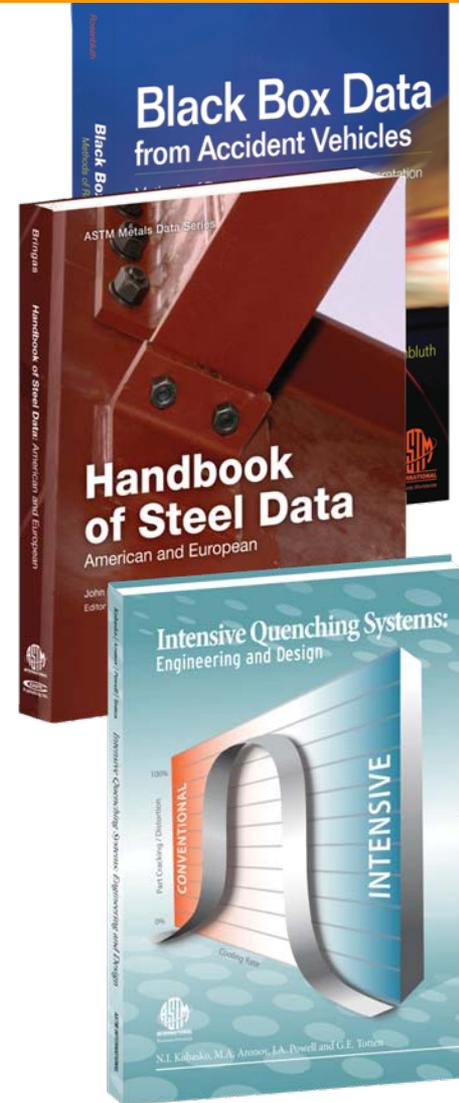

- Les derniers résultats de recherche en engineering rapportés dans les symposiums ASTM.
- 29,000 articles - Les proceedings des conférences ASTM sont à comité de lecture
- Publiés en forme d'un livre
- 1 517 livres croissant chaque année.
- 10-12 ajoutés chaque année
- 382136 pages
- 1931 – Aujourd'hui

ASTM fournit les propriétés et les liens entre 223 alliages métalliques et plus de 80000 courbes de données. Cette interface facile à utiliser permet aux abonnés ASMD d'accéder aux propriétés physiques, chimiques et mécaniques d'alliages ainsi qu'aux processus de leur fabrication et d'autres informations de conception et d'ingénierie.

MPMD: Développé par Semiconductor Research Corporation (SRC), cette base de données contient toutes les informations concernant les propriétés thermiques, mécaniques, électriques et physiques des matériaux entrant dans la composition des boîtiers des composants électroniques. TPMD: Cette base de données contient toutes les informations concernant la thermo physique et thermo-radiative des alliages métalliques, des liquides et solides non

Standards Development for Impermeable, Constructible, and Durable Waterproofing

Strong J., Kovach J., Eng V.
February 2006 -- [JAI Volume 3, Issue 2](#) 10.1520/JAI13117

Building owners 39; expectations for waterproofing systems are simple. Waterproofing must prevent the passage of water (impermeability), must be capable of successful installation under typical construction conditions (constructability), and must continue to provide waterproofing for the life of the structure (durability). The realization of these expectations is thwarted, in part, by a lack of ... [More](#)

The screenshot shows the MyASTM Digital Library website. At the top, there is a navigation bar with tabs for Home, Standards, Journals, Symposia Papers STPs, Manuals, E-Books, and Terminology Dictionary. Below the navigation bar, the page title is "MyASTM / Digital Library / MyStandards". A welcome message reads "Welcome DG-RSDT".

On the left side, under "You have access to the following:", a red box highlights the text: "Subscription to: Standards plus Digital Library - Plus (expiration September 30, 2012)".

On the right side, the account number "Account#: 1483693" is displayed, along with the user's address: "Direction Generale de La Recherche Scient. Du Dev. Tech, 23 Ave Slimane Asselah, Telemy, Algeria". There are also links for "What are Plus and Basic Subscriptions?" and "What is the Annual Book of ASTM Standards Online?".

The main content area features several search and browse options, each with a yellow number in a box:

- 1** Search Standards: A section with a text input field for "Enter Designation or Keyword", a "Search Full Text" dropdown menu, and "Search" and "Clear Form" buttons.
- 2** Browse by Interest Area: A section with a dropdown menu for "Adhesives" and a "Browse" button.
- 3** Browse By ASTM Committee: A section with a dropdown menu for "Choose Committee" and a "Browse" button.
- 4** Browse By ICS: A section with a dropdown menu for "Choose ICS Number Code" and a "Browse" button.
- 5** View the Alphanumeric Listing of Standards: A section with a horizontal list of letters "A B C D E F G" and a "View Additional Listings" button.

At the bottom of the page, there is a footer with the text "Track Changes to Standards | Search Tips | Support Desk" and a "CADOC" logo on the left.

Rappel du contenu et de la date d'expiration de votre souscription .

- 1- cherchez une norme par mot clé ou titre de la norme
- 2- Parcourir les normes par domaine d'intérêt.
- 3- parcourir les normes par comité ASTM.
- 4- °Parcourir les normes par thème ICS : ICS(International classification of standards).
- 5- parcourir les normes par :
 - Liste alphabétique
 - liste de normes annulées(withdrawn)
 - liste des documents de travail ASTM
 - Listes des normes ISO et UOP adaptées par ASTM

Note : Les Comités techniques de ASTM développent et maintiennent des normes ASTM. Ils sont regroupés par des désignations en fonction de leur activité liée à un champ de travail particulier (ex: A01 sur l'acier, acier inoxydable et alliages connexes). Comités ASTM sont constitués de plus de 32.000 bénévoles de l'industrie et des fabricants et des consommateurs, ainsi que d'autres groupes d'intérêt tels que le gouvernement ou des universités.

Modeling and Simulation of Film and Transitional Boiling Processes on a Metallic Cylinder During Quenching

Stark, Paul

Institute on Materials Science (IWT), Univ. of Bremen,

Fritsching, Udo

Institute on Materials Science (IWT), Univ. of Bremen,

(Received 15 September 2010; accepted 3 August 2011)

Abstract

A multiphase flow and heat transfer model is used to simulate the flow field and the heat transfer process of a metal specimen located in a flow during the quenching process. The applied bubble crowd model is able to

Twelve peer-reviewed papers provide the latest information available on building envelope interface. These papers represent original research to reduce water leakage attributed to window installation practices, particularly in residential and light commercial construction.

Topics cover:

- How to detect and observe hidden window leaks using infrared thermography
- Assessing the effectiveness of wall-window interface details to manage rainwater—from window installation to a wall sheathed in extruded polystyrene
- Test data for wall assemblies incorporating methods for fenestration installation that would be applicable to the wall systems commonly found in the coastal Southeast, with consideration of the high wind-driven rain loads that accompany tropical storms
- And much more!

anti-reflection coating
a process to apply material to the surface of the glass that reduces reflection, and increases the light transmission through the component.
Standard: C1661
Committee: C26

antireflective (AR) coating, n
a coating applied to either the front surface of the CCD or the vacuum window surfaces, to minimize the amount of reflected energy (or electromagnetic radiation) so as to maximize the amount of transmitted energy.
Standard: E2642
Committee: E13
